Be Part of the Solution

Who better to provide solutions to weight control than medical professionals? They bring credibility that diet “gurus”, unproven diet techniques and short-lived diet fads do not. That’s why Thinique Medical Weight Loss Clinics are staffed by qualified medical professionals.

IT WORKS.

Weight loss of up to 2-5 pounds a week and as much as 15-20 pounds in the first month are not just reported...but typical. Thousands of patients have been through the program and are raving fans!
